### Head Lice

We have been informed of a case of head lice in Willow class. Please check your child's hair and treat as necessary. Treatments to get rid of head lice are available to buy from pharmacies, supermarkets and online. You don't usually need to see your GP. The main treatments are:

- lotions or sprays that kill head lice – these can be very effective, but some aren't suitable for pregnant or breastfeeding women, or for children under two
- removing head lice with a specially designed comb – this is suitable for everyone and relatively inexpensive, but needs to be repeated several times and can take a long time to do thoroughly

A pharmacist can advise you about the treatments available if you're not sure which is best for you or your child.
