

Oak Class have had a very hard working start to the year. Year 6 are settling in to being the oldest in the school and are enjoying their new responsibilities - including an enthusiastic campaign for Head Girl/Boy. They are particularly enjoying working with their apple class buddies. We are enjoying our space topic and have produced some fantastic group projects. The whole class is working hard with their writing skills and are producing some very ambitious extended pieces. Problem solving in maths is providing a welcome challenge and the children are enjoying using different methods and equipment to help them solve some very tricky problems!
